Mr. Duckett

GMAIC Report to USIB on
International Conferences

25X1A

1. [REDACTED] called me today to advise that Adm. Taylor reviewed the subject paper to which the DD/S&T gave its concurrence. The Admiral jotted a note on the paper to this effect: He fails to see the net advantage to the U.S. in this program and feels that it is time we got back, particularly [REDACTED]. He has asked for DD/S&T and DDP views on this matter.

25X1C

2. [REDACTED] suggests that we send a memo to the DDCI stating that the proposed conference schedule is the minimum that is needed and will be to the net advantage of the U.S.

25X1A

3. FYI--When we gave DD/S&T concurrence to this USIB document we checked with FMSAC and were advised by [REDACTED] that FMSAC worked out the conference schedule with GMAIC and that they fully supported the schedule as it stood.
